Social Capital Stichting
Claude Debussylaan 46
1082 MD Amsterdam

Doom, 30 June 2017

General information

Objective and focus

1. The object of the foundation is to create a non-profit foundation of engaged philanthropists with a shared vision to invest globally through partnerships or as originators of innovative aid projects which include education, healthcare and income generation for maximum sustainability.

This foundation will maintain the highest level of integrity, be solely for philanthropic purposes, become evergreen as overtime it will be based on grants, loans and equity investments and further do everything that may be connected to the foregoing in the widest or may be conducive thereto.

2. The foundation tries to achieve this object, among other things, by:

a. supporting and financing village income generating activities with knowledge and capital, which in turn can support education and health services;

b. identifying and working with best in class small development organisations for maximum impact, i.e. those with an established operating history, very low overhead and demonstrable results;

c. creating a portfolio of leading development organisations, which are willing to cooperate closely to achieve maximum impact;

d. identifying an unfulfilled need and create an entity which can satisfy that if it is capable of becoming self-supporting. This will then be spun off to become independent when it has some scale, i.e. student Microfinance/Entrepreneurship loans.

3. In trying to achieve the above mentioned, the foundation:

a. concentrates on programs and individual organisations, which are in close proximity to one another, i.e. multiples in same country;

b. leverages best practices across organisations and eventually across geographies.

4. The foundation does not intend to make a profit.

**Social Capital Stichting

Principles of valuation and determination

Entity information

General notes

Description of the most important activities of the entity

The activities of Social Capital Stichting consist mainly of creating a non-profit foundation of engaged philanthropists with a shared vision to invest globally through partnerships or as originators of innovative aid projects which include education, healthcare and income generation for maximum sustainability.

Description of the location of the actual activities

The registered address of Social Capital Stichting is Amsterdam. The actual address of Social Capital Stichting is Claude Debussylaan 46, 1082 MD in Amsterdam. Social Capital Stichting is registered at the trade register under number 53170520.

General accounting principles

Description of the accounting standards used to prepare the financial statements

The company financial statements have been prepared according with overall accepted Dutch accounting standards. Unless presented for the specific balance sheet item, assets and liabilities are presented at face value.

Accounting policies for the balance sheet

Financial assets

Loans are valued at nominal value, taking into account provisions considered necessary for doubtful debts.

Receivables

Receivables are valued at nominal value, taking into account provisions considered necessary for doubtful debts.

Accounting policies for the income statement

Accounting principles for determining the result

Income and expenses are accounted for on accrual basis. Profit is only included when realized on the balance sheet date. Losses originating before the end of the financial year are taken into account if they have become known before preparation of the financial statements.
